

AUTO RADIO ACCESSORIES

RCA AUTO RADIO LOCK **Stock No. 4575**

Auto Radio Sets are easy to install—but also easy to steal—unless protected by an RCA Auto Radio Lock. Just remove old nut from bulkhead bolt, slip on special bushing and nut, and lock slips over nut and bushing like a spare tire lock. Lock barrel made by Yale. Fits all makes of auto receivers.

Instrument Panel Control Unit **for RCA Victor Models** **M-123 and M-107** **Stock No. 4476**

Makes the remote control unit of RCA Victor Models M-123 and M-107 an integral part of the instrument panel. Specially designed for 1934 model Ford, Plymouth, Chrysler, DeSoto, and Dodge cars—over half of the total production of cars in first four months of 1934. May be adapted to other cars where sufficient panel space is available. Mounts flush with instrument panel. Chromium finish with black enamel stripes.

This control unit makes a neat job that will increase your sales of RCA Victor Auto Radio Receivers.
